cent. a year on the \$40,000,000 during a period of the years. In other words, the anunity is terminable in ten years, that is, on the 17th of Angast, 1835, no matter at what time the remainder of the stook certificates now deposited with the government is sold by the company. The Monitoreal bank has been appointed as trustee, and to that institution the government will pay the annuities or dividends semi-annually on the 17th of February and the 17th of August is such year, the hank undertaking to pay them to the shardholders without expense to the Dominion treasury. Nine millions of dol lars were deposited with the government on Friday, and the srangement is that the balance is to be paid and accured by the last of February next.
